BrainZ1 Techub Nagpur 3rd Dec 2022 to 21st Feb

- Convert user friendly and visually appealing interface using bootstrap.
- Convert XD to html code.
- I had the responsibility to train 4 people the front-end basics and helped them develop further.

PROJECTS

Furniture Product :

- I completed a furniture websites project where I designed and developed a responsive website for a furniture company . I used HTML,CSS, BOOTSTRAP AND JS to implement the design make the website responsive across different devices .

Restaurent Product :

- The website was design to showcase the restaurant menu ,location and other key information to potential costumers Overall, the restaurant website project was a great opportunity for me to showcase my web development skills and create a real world project .

E-Commerce Website :

- Developed a responsive e-commerce website using ReactJS, and Bootstrap.

To-Do App :

- Developed a to-do app using ReactJS with a focus on responsive design .
- Implemented a feature to add, delete and mark tasks as completed .
- Used React Hooks to manage the state and props of the components.
